# TRADE LIST

FALL, 1930

# The R. L. Haag NURSERIES

JEFFERSONTOWN, KENTUCKY

## MEMBERS

American Association of Nurserymen

Kentucky State Association of Nurserymen

National Association of Propagating Nurserymen

## TERMS

Usual terms to purchasers of approved credit.

Prices apply F. O. B. Freight or Express Offices at Jeffersontown or Louisville, Ky., and are subject to change without notice.

Packing will be charged at cost.

## LIABILITY

We are not liable for injury to stock from frost, hail, fire or other causes beyond our control. Plants become your property on delivery to transportation company and we are not responsible for loss, damage or delay in transit.

## SPECIMEN EVERGREENS

Evergreens of proper size herein are real specimen plants, frequently transplanted with room for development. They are grown in a fertile, clay-loam soil and can be lifted with solid, medium-size balls. Due to a changeable, exacting climate, the winters of alternate zero and thawing temperatures, most Evergreens hardy in this section will survive without ill effect the more rigorous winter weather of the northern states.

Inspection is invited.

**POTTED GRAFTS**  
**APRIL AND MAY DELIVERY**

Strong, well established plants in 2½, 3-in. pots. Well hardened off out of doors before shipping. Shipped in paper pots, packed to reach you in perfect condition. All Junipers are grafted on either Virginiana or Chinensis understock, Lawson Cypress varieties on Lawson Cypress, and Chamaecyparis Obtusa varieties on Chamaecyparis Obtusa seedlings, etc. Purchasers should beware of grafts on alien stock, as they never develop properly and in most cases are absolute failures.
